

Training 2021

When things aren't going right, turn left

Solution Focused approaches for therapy & clinical settings, corporate organisations and educational settings.

The Solution Focused approach can be successfully applied in any situation or setting where people want change but are not sure how to go about it.

Left Turn offers an extensive array of services including workshops, training, one on one coaching, clinical supervision, advice, consultation and general presentations on mental health, suicide prevention and intervention.

We work with small and large groups, on-site or in a comfortable off-site facility chosen by us. Let us know your needs and we will tailor training to specifically benefit your organisation.
